Patents Showing: View as: Patents 1 - 10 on **establishing or generating common cr**
[Sort by relevance](#) | [Sort by date \(new first\)](#) | [Sort by date \(old first\)](#)
Internationally regulated system for one to one cryptographic communications ...

US Pat. 5852665 - Filed Jul 18, 1996 - Fortress U & T Ltd.

being subject to an individual nation from among a third **plurality** of nations.... **generating** a sender-encrypted session **key** by **generating** a session **key**, ...
Internationally regulated system for one to one cryptographic communications ...

US Pat. 5664017 - Filed May 8, 1995 - Fortress U & T Ltd.

ID, public **key** and 35 Strm further in accordance with a preferred embodiment ...and a public **key** a **plurality** of decrypting agencies. ^ **cryptographic** device ...
CENTRALIZED VERIFICATION SYSTEM

US Pat. 3798605 - Filed Jun 30, 1971 - International Business Machines Corporation

During the first round of the **cryptographic** system, the mangier 30 performs noinitial ... **subscribers**, said method comprising the steps of: **establishing** a ...
Method for algorithm independent cryptographic key management

US Pat. 5179591 - Filed Oct 16, 1991 - Motorola, Inc.

55 An element **common** to these diverse **cryptographic** devices and algorithms isthe need for authorized senders and receivers to share cipher **key** information

...

Communication apparatus and a communication system

US Pat. 6078663 - Filed Jun 26, 1996 - Canon Kabushiki Kaisha

Sixth Embodiment In this embodiment, employed for **cryptographic** communication... are respectively a **key** that is used in **common** between **subscribers** A and B,

...

Algorithm independent cryptographic key management

US Pat. 5230020 - Filed Sep 30, 1992 - Motorola, Inc.

An element **common** to these diverse **cryptographic** devices and algorithms is theneed for authorized send- ers and receivers to share cipher **key** information ...
Data security scheme for point-to-point communication sessions

US Pat. 5627892 - Filed Apr 19, 1995 - General Instrument Corporation of Delaware

Common keys are keys virtual connections are established between a "headend" orwhich are used across a population of different **subscribers**, ...
Key controlled block cipher cryptographic system

US Pat. 4255811 - Filed Mar 25, 1975 - International Business Machines Corporation

The binary **key** suitable for use in information handling systems such as is ...data in a **plurality** of nonlinear and affine transforma- such a **cryptographic** ...
Communication method and device

US Pat. 5793866 - Filed Dec 13, 1995 - Motorola, Inc.

11 public **key** and **generating** a derived signal, the controller to ... the sessionsignal is a seed used to **establishing** a **cryptographic key** that is used to ...
Apparatus and method for authentication and encryption of a remote terminal...

US Pat. 6075860 - Filed Feb 19, 1997 - 3Com Corporation

A computer network 104 is comprised of a **plurality** of local terminals 106
